

HOW TO FORM A TEAM:

- Teams consist of at least 5 members
- Members must be in grades 9-12
- FFA, 4-H, home school and scout groups are also eligible
- Coaches may be a teacher, coach, or enthusiastic adult willing to help

WIN SCHOLARSHIPS & PRIZES

Winners compete at local, regional, and state competitions. First place state winners go on to the national level to compete for scholarship money and prizes.

2012 Virginia Envirothon team placed 8th at the Canon National Competition earning a total of \$6,000 in college scholarships.

Why Should You Participate?

- Learn about important environmental issues
- Gain hands on experience in solving real-world problems
- Great for college and job applications
- Spend time with teammates and friends
- Possibly travel across the country to the North American Envirothon for a chance to win scholarships and prizes!

Envirothon is a hands-on environmental problem-solving competition for high school students.

TEAMS ARE TESTED IN 5 AREAS

AQUATICS

Students work along marine and freshwater biologists to assess the quality of delicate aquatic ecosystems. Students learn to identify aquatic organisms, manage watersheds and determine non-point source pollution.

WILDLIFE

Students learn first hand from wildlife experts about animal populations, identification and the importance of habitat conservation.

ENVIRONMENTAL ISSUES

Students are tested on a current environmental issue with an in-field test and oral presentation. Students present their solutions, to be judged, to a panel of professionals.

SOILS

Professional soil Scientists help students learn about soil structure, interpret maps, evaluate land forms, and understand soil characteristics that affect both agriculture and urban development.

FORESTRY

With the help of Professional foresters, students learn the basics of tree identification, forest structure and how to maintain healthy forest ecosystems.
